PETITIONING THE COURT TO:

To modify the conditions of supervision as follows:

You must cooperate with the U.S. Probation Office in the monitoring of any computer system, Internet capable devices, and / or similar electronic devices that you have access. Cooperation includes, but is not limited to, identifying computer systems, Internet capable devices, and / or similar electronic devices (as defined in 18 U.S.C. § 1030(e)(1)) to which you have access and allowing the installation of monitoring software/hardware on said devices. You and/or your probation officer shall inform all parties that access a monitored computer or similar electronic device that the device is subject to search and monitoring. You may be limited to possessing only one personal Internet capable device to facilitate your probation officer's ability to effectively monitor your Internet related activities. You must not remove, tamper with, reverse engineer, or in any way circumvent installed software. You must provide passwords for said computer systems. If able, you must pay the cost of monitoring unless excused by the probation officer.

To ensure compliance with the computer monitoring condition, you must allow the probation officer to conduct initial and periodic unannounced searches of any computers, computer systems, Internet capable devices, and similar electronic devices (as defined in 18 U.S.C. § 1030(e)(1)) subject to monitoring. These searches shall be conducted for the purpose of determining whether the computer contains any prohibited data prior to installation of the monitoring software; to determine whether the monitoring software is functioning properly after installation; and to determine whether there have been attempts to circumvent the monitoring software after installation.

I declare under penalty of perjury that the foregoing is true and correct.
